

Botwiki Edit-a-thon

Did you notice...?

Agenda

Me!

As the creator, I will share the story of Botwiki (and related projects).

Agenda

Justin Myers (@myersjustinc)

News automation editor at Associated Press, will talk about journalism-related bots used at Associated Press and other news organizations.

Agenda

Leonard Richardson (@leonardr)

Author of, among other things, Beautiful Soup, a popular web scraping library for Python, and the RESTful Web APIs book, will describe a technique that saves him a lot of time during bot development.

Agenda

Daniel Ilkovich (@danielilkovich)

Founder of Dexter, a tool that lets you quickly build and share integrations of various online services, will share the story and the future vision of Dexter.

The image shows a Twitter feed with two tweets. The top tweet is from **Albert Wenger** (@albertwenger) posted 3 minutes ago. The text reads: "The Great Bot Rush of 2015-16 tumblr.co/Z1T9by1_1Y-eu". Below the tweet are standard interaction icons: a reply arrow, a retweet icon with the number 1, a lock icon, a heart icon with the number 3, and a more options menu. The bottom tweet is from **ProgrammableWeb** (@programmableweb) posted 3 minutes ago. The text reads: ".@NASA eases access to #opendata with #API PoC bit.ly/1P5I42V". Below the tweet is the hashtag "#space #datasets". To the right of the tweets is a context menu with the following options: "Share via Direct Message", "Copy link to Tweet", "Embed Tweet", "Mute", "Block", and "Report". A small image of an astronaut on the moon is visible next to the NASA link.
